

*Walk drive technology bv
manufacture special gears in various designs....
....upon customer specifications.*

Our programme:

- *internal gear till Ø1000mm (Ø2600mm);*
- *Ratchet gears;*
- *"Hirth" gears;*
- *spline-shafts till length 5000mm
DIN 5480/5482 Module 0,8 till Module 8,0;*
- *spline hubs;*
- *combination wheels (Spur gearwheel and sprocket);*
- *crowning shape gears;*
- *ellips gears;*
- *DP- en CP-gears;*
- *We support you with strength and lifetime
calculations for your application in special gears.*

We also manufacture and supply according to drawing and specifications

- *Group 1: standard drive components*
- *Group 2: spur and helical gears*
- *Group 3: sprockets*
- *Group 4: racks*
- *Group 5: worms and worm gears*
- *Group 6: bevel gears*
- *Group 7: timing belt pulleys*
- *Group 8: special gears*
- *Group 9: complete drive modules according to customer specifications or engineered by Walk.*

Knowledge + supplier = Walk

**Please see backside for a selection
of Walk products**

GROUP 8, A SELECTION OF OUR SPECIAL GEARS ASSORTMENT:

Splines on pitch axis,

Broaching of key-ways, splined in bores

Splined connections according to DIN5480 on shafts and in hubs

Crowning teeth on pitch axis, Tooth clutches etc.

Ellipse spur gears

Splined shafts with splined hubs

Sprockets with "Hirth" gears

Walk you partner for gears

- Spur gears with divergent lead angle;
- DP- , CP gears;
- Sprockets acc. to DIN8187, ASA8188;
- Shared wheels in segments.
